PMP®, SPC6

E-Mail: ruge.somanath@gmail.com, LinkedIn: <https://in.linkedin.com/in/somruge>

Product Management and AI / Digital Transformation leader with 20+ years of experience delivering large-scale, cross-functional programs in Agile and enterprise environments. Proven track record in program delivery, stakeholder management, governance, and strategic initiatives that improve delivery velocity, reduce risk, and align with business outcomes. Experienced in leading global teams across the US, India, Australia, and Thailand, and now applying AI to how teams plan, decide, and ship.

CORE COMPETENCIES

Program Management | Technical Program Management | Agile Program Delivery | KPI & Metrics | Stakeholder Management | Program Governance | Roadmap Planning | Strategic Alignment | Risk & Dependency Management | Change Management | Delivery Excellence | Continuous Improvement | Agile Transformation | Scope, Schedule, Budget & Cost Management

PROFESSIONAL EXPERIENCE

Sr. Business Analyst

FEI Systems | Columbia, MD

July 2026 – Present

Director – Program Management (Scrum of Scrums Master)

Fidelity Investments | Durham, NC

March 2022 – May 2026

Led multiple concurrent enterprise programs across cross-functional teams, supporting large-scale Agile delivery and strategic initiatives across distributed global teams.

- Directed program delivery across 8+ cross-functional teams (40+ members), improving delivery predictability by 20–30% through enhanced planning, tracking, and governance practices
- Partnered with senior leadership to prioritize and execute strategic roadmap initiatives, reducing time-to-market by 25% for key deliverables
- Established governance frameworks and operating models, reducing delivery defects and escalations by ~20%
- Managed cross-team dependencies, risks, and escalations for concurrent initiatives, improving on-time delivery rates by 15–20%
- Coached product owners, teams, and leadership on Agile best practices, leading to a 30% improvement in team transparency and reporting accuracy
- Facilitated alignment between business and technology stakeholders, accelerating decision-making cycles by 25%
- Led organizational Agile maturity improvements, increasing team efficiency and throughput by 20%+

Program Manager/Sr. Scrum Master/RTE

FEI Systems | Columbia, MD

Jan 2017 – March 2022

Led Agile Release Train (ART) and enterprise transformation initiatives across multiple teams, supporting large-scale program delivery and organizational Agile adoption.

- Led enterprise Agile transformation, implementing SAFe across 10+ teams (~60 team members), driving alignment and scalable program delivery

- Improved team predictability to 90% and execution efficiency by 75%, through Agile coaching, sprint optimization, and delivery tracking enhancements
- Managed Agile Release Train (ART), ensuring on-time delivery of multiple concurrent software releases, improving release cycle reliability by 25%
- Directed program planning and execution, including resource allocation, risk management, and change control, delivering initiatives within budget and timeline constraints
- Partnered with stakeholders and product leadership to align roadmap priorities, improving delivery throughput by 30%
- Implemented continuous improvement practices, increasing team velocity by 20%+ and reducing delivery bottlenecks among teams
- Drove enterprise Agile transformation, significantly improving cross-team collaboration and dependency management
- Facilitated program-level ceremonies (PI Planning, retrospectives, syncs), improving planning accuracy and execution alignment distributed teams

Project Delivery Manager

Ciber Inc | Washington, DC

Nov 2009 – Dec 2016

Managed multiple projects, cross-functional teams, and enterprise technology initiatives.

- Led delivery of multiple concurrent projects, ensuring alignment with scope, schedule, and budget objectives
- Managed cross-functional teams of 15+ members, delivering a \$3.5M SaaS platform on Microsoft Azure
- Improved sprint velocity by 20% through Agile process improvements and team coaching
- Established KPIs and continuous improvement practices, reducing development time by 35% and improving quality by 22%
- Implemented enterprise-wide Database Activity Monitoring system, resulting in \$5M annual cost savings
- Oversaw project planning, execution, and performance tracking to ensure successful delivery outcomes
